

Cumulative Index 1987

Volume

<i>January</i>	PEDIATRIC SURGERY OF THE FOOT AND ANKLE, pages 1-313
<i>April</i>	THE DIABETIC FOOT, pages 315-522
<i>July</i>	OCCUPATIONAL MEDICINE, pages 523-766
<i>October</i>	EMERGING TECHNOLOGIES IN PODIATRIC MEDICINE, pages 767-1006

Note: Page numbers of articles appear in **boldface** type.

- Abscess, in diabetic foot, 405
 - magnetic resonance imaging in, 917
- Accessory bones, radiographic appearance of, 21-23
- Accident prevention, 524
- Achilles tendon, contracture of, evaluation of, 111-112
 - tendonitis of, orthotic device for, 964
- Acro-osteolysis, occupational, 575-576
- Aerosclerosis, occupational, 575-576
- Adaptic dressing, in wound care, 417
- Aerosols, inhalation of, 610-612
 - sampling of, 614
- Air pollution control, as extension of industrial hygiene, 525
- Air sampling, of toxic substances, 612-614
- Albumin level, in diabetic ulcer, 391-392
- Alcohols, toxicity of, 568
- Aldose reductase, in diabetic neuropathy, 325-326
- Aldose reductase inhibitors, in neuropathy treatment, 348-349
- Allergy, dermatitis from, 572-574
- American Conference of Governmental Industrial Hygienists, 606
 - TLV list of, 620-627
- American Indian, diabetic foot amputation in, 503-516
- American Industrial Hygiene Association, 606
- Ames Test, 585
- Amines, aromatic, carcinogenicity of, 585, 587
- Aminoglycosides, in diabetic infection, 402
- Ammonia, inhalation of, 609
- Amputation, in diabetic foot, 481-500
 - anesthesia for, 491
 - causes of, 504
 - causing osteoarthropathy, 356
 - complications of, 508-512
 - prevention of, 503-516
 - conditions leading to, 481-482
 - digital, 492-496, 506
 - healing criteria in, 488-490
 - historical perspective of, 483-485
 - incidence of, 482-483
 - indications for, 486
 - level determination for, 487
 - of ray, 506
 - partial, 409
 - patient assessment for, 487-488
 - preoperative evaluation in, 487
 - prevention of, 504-505
 - prophylactic antibiotics in, 492
 - ray resection, 496
 - secondary, 508
 - shoe modification for, 446-447
 - techniques for, 490-491, 505
 - through midfoot, 500
 - tourniquet for, 491-492

- Amputation (*Continued*)
 in diabetic foot, transmetatarsal, 496-500, 507-508
 incidence of, in diabetes mellitus, 599-600
 of supranumerary digit, 59-62
 Amyotrophy, diabetic, 344
 Anesthesia, in amputation, 491
 in arthroscopy, 868
 in conversion disorder, 745
 in pediatric patients, 4-5
 Angiography, in diabetic foot evaluation, 323, 362-363
 in peripheral vascular disease detection, 739
 Anhidrosis, in diabetic foot, 343
 Ankle, dorsiflexion of, determination of, 661-662
 fracture of, 293-297
 avulsion, 887-895
 transchondral, 857, 895-901
 injury of, in athletes, 675
 in dancers, 675
 neuromuscular deformity of, 175-206
 sprain of, chronic lateral instability after, 876
 in dancers, 702
 strength of, in dancers, 688
 Ankle joint, anatomy of, in basal degeneration, 854
 in chondromalacia, 853-854
 in erosions, 859
 in impingement lesions, 857-858
 in intraarticular avulsion fracture, 857
 in magnetic resonance imaging, 907-908
 in osteochondral bodies, 858
 in superficial degeneration, 854, 856
 in synovitis, 852-853
 in transchondral fracture, 857
 arthroscopy of, anatomy of, 847-860, 886-887
 in intraarticular fracture, 885-902
 portals for, 861-868
 accessory, 867-868
 anterior, 861-864
 posterior, 864-866
 stapling repair in, 875-883
 techniques for, 868-874, 876-880
 biomechanics of, 875-876, 886-887
 magnetic resonance imaging of, 903-924
 Ankle reflex, in diabetic neuropathy, 346
 Antibiotics, in diabetic infection, 389-390, 402-404
 in osteomyelitis, 47-49
 prophylactic, in amputation, 492
 Antidotes, to toxic substances, 560-561
 Aortic graft, in peripheral vascular disease, 379-380
 Arch, morphology of, determination of, 666
 strain in, occupational, 556
 Arch supports, for runners, 964
 Argon laser, 771, 778-779, 794-795
 Aromatic amines, carcinogenicity of, 585, 587
 Arsenic, carcinogenicity of, 588-589
 toxicity of, 565-566
 Arterial bypass, in peripheral vascular disease, 379-380
 Arterial insufficiency, in diabetic patient, 377-381
 Arthrodesis, of subtalar joint, in spastic deformity, 178-179
 triple, 183
 Arthroereisis, in spastic deformity, 179
 subtalar, 103-106, 153-161
 Arthrogryposis multiplex congenita, 181
 Arthroplasty, condylar implant, in tarsal coalition, 91-95
 Arthroscopy, clinical application of, 829-834
 history of, 829-834
 instrumentation for, 835-846, 873
 arthroscope, 835-836
 camera, 841
 cannula, 836-837
 development of, 830-834
 hand surgical instruments, 842-843
 leg holder, 845
 light cables, 839
 light sources, 840
 monitor, 841-842
 obturator, 838-839
 powered, 843
 trocar, 836
 oblique field of view in, 836
 of ankle joint, anatomy in, 847-860
 anesthesia for, 868
 complications of, 873
 in stapling repair, 880
 in intraarticular fracture, 885-902
 patient position for, 868
 portals for, 861-868
 stapling repair in, 875-883
 techniques for, 868-874, 876-880
 Asbestos, carcinogenicity of, 589
 Aspiration, in osteomyelitis, 42
 Aspirin, in diabetic ulcer, 387
 Atherosclerosis, in diabetic patient, 324-325, 377-379
 in peripheral vascular disease, 731-732
 Athletes. See also *Sports; Stress fracture*.
 effect of floor surfaces on, 705
 flexibility in, 683-684
 foot pressure in, 691-692
 functional anatomy of, 681-682
 injuries of, epidemiology of, 673-680
 knee strength in, 685, 688
 musculoskeletal changes in, 682-683

- occupational biomechanics of, 671-705
 spondylolysis in, 703
 stress fractures in, 702-703
 Autonomic neuropathy. See under *Neuropathy*.
- Avulsion fracture, of ankle, 887-895
 arthroscopic anatomy of, 857
 at anterior talofibular ligament, 891-892
 at anterior tibiofibular ligament, 887-891
 at anterior tibiotalar ligament, 893-894
 at posterior talofibular ligament, 893, 894
- Back strength, of dancers, 684-685
- Bacteriologic evaluation, preoperative, in diabetic patient, 452-453
- Ballet. See *Dancers*.
- Bar, calcaneonavicular, 80-81, 88-89
- Basal degeneration, of joint, arthroscopic anatomy of, 854
- BEIs (Biological Exposure Indices), 627
- Berman-Gartland procedure, in metatarsus adductus deformity, 221-224
- Beryllium, carcinogenicity of, 589
- Betadine, in diabetic ulcer treatment, 388
- Bioaerosols, sampling of, 614
- Biobrane dressing, for diabetic ulcer, 422, 425
- Biologic dressing, for diabetic infection, 409
- Biologic Limit Value (BLV), 626-627
- Biologic substances, occupational exposure to, 626-627
- Biological Exposure Indices (BEIs), 627
- Biomechanical examination, in occupational medicine, 653-669
 ankle dorsiflexion in, 661-662
 arch morphology in, 666
 calcaneal stance in, 666
 equipment for, 655-656
 first ray position in, 662-663
 forefoot deviation in, 665
 format for, 656
 gait angle in, 667-668
 genicular influence in, 665-666
 hallux dorsiflexion in, 663
 hamstring length in, 660-661
 history in, 654
 ligamentous laxity in, 667
 limb length determination in, 656
 limb rotation determination in, 656-657, 660
 malleolar position in, 661
 normal criteria in, 655
 stance angle in, 667
 subtalar joint position in, 663-665
 tibial varum in, 666
 total varus determination in, 665
- Biomechanics, following amputation, 509
 measurement of, with photonics, 925
 of ankle joint, 875-876, 886-887
 of athletes, 671-705
 of dancers, 671-705
 of occupational footwear, 629-643
 of stress fracture, 974-975
- Bioocclusive dressing, for diabetic ulcer, 421, 425
- Bischloromethyl ether, carcinogenicity of, 587
- Bleeding control, laser surgery in, 774-775
- Blindness, in diabetes, 319-323
- Blood flow measurement, in diabetic patient, 488-490
 with thallium-201 scan, 362-363
 with Doppler ultrasound, 755
- Blood glucose, management of, in neuropathy treatment, 348
 preoperative, 440-441
 measurement of, 319
- Blood pressure, in diabetic patient, 325
 measurement of, with Doppler ultrasound, 755-756
- BLV (Biologic Limit Value), 626-627
- Bone, infection in, 37-56
 remodeling of, stress fracture and, 971
 resorption of, in osteoarthritis, 355-356
 tumors of, magnetic resonance imaging in, 913, 917
- Bone graft, in Jones' fracture, 951
- Bone marrow disorders, magnetic resonance imaging in, 908, 912-913
- Bone scan, in diabetic foot evaluation, 363-366
 in osteoarthritis diagnosis, 358
 in osteomyelitis, 43-47
 in stress fracture, 982-983
- Bracing, in stress fracture, 985
- Bunion. See *Hallux valgus*.
- Burns, in laser surgery, 824-827
- Bursitis, retrocalcaneal, versus Haglund's syndrome, 942, 944
- Cables, light, in arthroscopy, 839
- Cadmium, carcinogenicity of, 588
- Calcaneal stance position, determination of, 666
- Calcaneocavus deformity, paralytic, 197-198
- Calcaneocuboid coalition, 86-90
- Calcaneonavicular bar, 80-81, 88-89
- Calcaneus, coalition of, with talus, 81-85
 osteotomy of, in flexible flatfoot, 137-151
 paralytic, 191-193
 spastic, 188-189
- Calcification, intravascular, in diabetic foot, 378

- Calcinosis, medial, in diabetic foot, 378
- Callous, in diabetic foot, 336-337
- Camera, in arthroscopy, 841
- Cancer, biologic mechanisms in, 590
 occupational, 581-592
 causes of, 581-589
 control of, 590
- Cannula, in arthroscope, 836-837
- Carbamates, toxicity of, 569
- Carbamazepine, in diabetic neuropathy, 349
- Carbon dioxide laser, 779
 beam-limiting devices of, 790
 cooling system of, 789-790
 fiberoptic delivery system of, 792-793
 freehand delivery system of, 790-791
 gas source for, 789
 in toenail disease, 809-821
 microscopic delivery system of, 791-792
 optical cavity of, 789
 portable, 793
 power control system for, 788-789
 power source of, 787
- Carboxymethyl cellulose dressing, in diabetic ulcer, 420-421
- Carcinogens, biologic mechanisms in, 590
 occupational, 581-589
 exposure limits for, 624-625
 exposure to, 541
 protection against, 590
 testing of, 585
- Cardiovascular disease, in diabetic patient, 325
 occupational, 534, 536
- Cartilage degeneration, arthroscopic anatomy of, 853-856, 859
- Cartilaginous procedure, in metatarsus adductus deformity, 219-220
- Cast, for diabetic ulcer, 391, 415, 471-478
- Catapres. See *Clonidine*.
- Cavovarus deformity, 189, 198-203
- Cavus foot, radiography of, 30
- Cellulitis, crepitant, in diabetic ulcer, 399-401
- Cement dermatitis, 573-574
- Cephalosporins, in diabetic infection, 389, 402
- Cerebral palsy. See *Spastic deformity*.
- Charcot joint, 351-359
 contraindicating surgery, 452
 evaluation of, with nuclear medicine, 372
- Chemical hazards. See *Toxic substances*.
- Children. See *Pediatric patients*.
- Chondromalacia, arthroscopic anatomy of, 853-854
- Chondromatosis, arthroscopic anatomy of, 858
- Chondrotomy, Johnson, in metatarsus adductus deformity, 219-220
- Chopart amputation, in diabetic patient, 500
- Chromium, carcinogenicity of, 588
- Claudication, in peripheral vascular disease, 733
 test for, 737-738
- Claw toe, after hallux amputation, 510-511
- Clindamycin, in diabetic infection, 402
- Clinoril. See *Sulindac*.
- Clonidine, in diabetic neuropathy, 349
- Clostridial infection, in diabetic ulcer, 399-402
- Clubfoot, anatomy of, 234-237
 classification of, 247-249
 deformities associated with, 250
 etiology of, 251
 four quadrant surgical approach to, 233-245
 pathology of, 249-250
 radiography of, 33-35
 recurrent, 247-265
 spastic, 181-183
- Coagulation disorders, atherosclerosis and, 324
- Coalition, tarsal, 75-98
 radiography of, 26-28
- Cole osteotomy, in cavovarus, 201
- Comfeel/Ulcus dressing, for diabetic ulcer, 420, 424
- Computers, in photonics, 925-935
- Congenital convex pes valgus, 163-173
- Contact cast, in wound care, 391, 415, 471-478
- Contact dermatitis, occupational, 572-574
- Contracture, digital, in diabetic foot, 334, 336
- Contrast media, in diabetic patient, 323
- Conversion disorder, 744-746
- Convex pes planovalgus, radiography of, 28-30
- Convex pes valgus, congenital, 163-173
- Corns, in diabetic foot, 455
- Coronary artery disease, in diabetic patient, 325
- Cramps, leg, in peripheral vascular disease, 396
- Cuboid, coalition of, with calcaneus, 86-90
- Curettage, medullary, in Jones' fracture, 951
- Dancers, ankle strength in, 688
 back strength in, 684-685
 effect of floor surfaces on, 705
 flexibility in, 683-684
 foot positions of, 671, 680-681
 foot pressure in, 691-693
 functional anatomy of, 680-682
 injuries of, epidemiology of, 672-680
 pathomechanics of, 700-704
 knee strength in, 685, 688
 lower extremity acceleration in, 693-700
 musculoskeletal changes in, 682-683

- occupational biomechanics of, 671-705
 pointe work by. See *Pointe work*.
 shoes for, biomechanics of, 704
- Débridement, in diabetic infection, 388-389, 399-400, 405-409, 414-416
 in osteomyelitis, 49-51
 with laser surgery, 775
- Debrisan, in wound care, of diabetic foot, 415
- Deformity, evaluation of, 450
- Dermatitis, occupational, 572-574
 substances causing, 573-574
- Dermatosis, occupational, 532
- Detergents, in wound care, of diabetic foot, 414
- Diabetes mellitus, amputation in, incidence of, 599-600
 classification of, 439
 complications of, 319-327, 440
 disease severity and, 332
 foot problems in, prevalence of, 598-599
 future outlook for, 327-328
 management of, 315-319
 overview of, 315-328
 preoperative considerations in, 440-441
 vascular evaluation in, 377-381
 wound healing and, 413-414
- Diabetic amyotrophy, 344
- Diabetic foot, amputation in, 481-500
 complication prevention in, 503-516
 examination of, 331-338
 hyperbaric oxygen and, 429-436
 infection of, 395-410
 neurological evaluation of, 341-350
 nuclear medicine applications for, 361-372
 osteoarthropathy in, 351-359
 perioperative management in, 439-443
 prophylactic surgery in, 445-457
 shoe gear for, 459-469
 total contact cast for, 471-478
 ulcer in, 382-393
 synthetic membranes for, 419-426
 wound care in, 413-418
- Dialysis, in diabetic nephropathy, 323
- Diarrhea, diabetic, 326
- Dias-Tachdjian classification, of epiphyseal injuries, 294-297
- Diet, in diabetic management, 315-316
- Digit(s). See also *Toe(s)*.
 amputation of, in diabetic foot, 492-496, 506
 deformity of, in diabetic foot, 455
 supranumerary, 57-62
- Dilantin. See *Phenytoin*.
- Disability, classification of, 647-648
- Doppler index, in vascular status evaluation, 386
- Doppler ultrasound, in diabetic foot examination, 334, 397
 pre-amputation, 489
 in peripheral vascular disease detection, 738-739
 in vascular testing, 754-756
- Dorsalis pedis pulse, evaluation of, 333
- palpation of, 735-736
- Dorsiflexion, determination of, of ankle, 661-662
 of hallux, 663
- Drainage, in diabetic infection, 387-389, 405-408
- Dressing. See also *Synthetic membranes*.
 in wound care, 416-417
- Dropfoot, 195
- Duoderm dressing, for diabetic ulcer, 420, 424
- Dyes, dermatitis from, 574
- Electromagnetic flow meter, in peripheral vascular disease detection, 740
- Electromyography, in diabetic neuropathy, 346
- Elevation-Dependency Test, in peripheral vascular disease, 737
- Epidemiology, 593-604
 examples of, 598-603
 of athletic injuries, 673-680
 of dance injuries, 672-680
 types of studies in, 594-598
- Epiphysis, anatomy and physiology of, 279-286
 growth arrest of, in hallux valgus, 65-66
 histology of, 281-282
 injury to, 279-310
 classification of, 288-290
 in ankle, 293-307
 in foot, 290-293
 strength of, 283-285
 vascular supply of, 282-283
- Equinovalgus deformity, paralytic, 193-196
 spastic, 188
- Equinovarus deformity, paralytic, 196-197
 spastic, 183-187
- Equinus deformity, paralytic, 190-191
 spastic, 181-183
- Erosions, of cartilage, arthroscopic anatomy of, 859
- Ethylene oxide, inhalation of, 610
- Evans procedure, 137-151
- Examination, biomechanical, 653-669
 neurological, 11-20
 of diabetic foot, 331-338
- Excursion limit, for toxic substances, 625
- Exercise, in diabetes management, 316
 in plantar fasciitis, 942
 in stress fracture, 985
- Exposure, to hazardous materials, routes of, 608-612
 standards for, 619-628

- Factitial disorders, occupational, 747-751
 Factory Acts, 645-646
 Fasciitis, necrotizing, in diabetic ulcer, 401
 plantar, 939-942
 in dancers, 701
 orthotic device for, 963
 Fatigue fracture. *See Stress fracture.*
 Femoral position, determination of, 660
 Femoral pulse, palpation of, 735-736
 Femoral torsion, determination of, 660
 Fiber, dietary, in diabetes management, 316
 Fiberglass, dermatitis from, 574
 Film dressing, for diabetic ulcer, 421
 Fire, in laser surgery, 786, 824
 First ray position, determination of, 662-663
 Fit, of shoe for diabetic foot, 460
 Flaccid deformity, 179-181
 Flamenco dance, 672
 foot deformities in, 683
 foot pressure in, 692
 injuries in, epidemiology of, 673-674
 kinematics of, 681
 shoes for, 704
 vibration in, 693-700
 Flatfoot, compensatory, 120
 flexible, 99-117
 calcaneal osteotomy in, 137-151
 peroneal spastic, 79-80
 radiography of, 24-26
 rigid, radiography of, 26-30
 tarsal coalition and, 75-98
 rockerbottom, 163-173
 structural, 120-123
 subtalar arthroereisis in, 154
 talar neck osteotomy in, 119-136
 Flexibility, in athletes, 684
 in dancers, 683-684
 of footwear, 635-637
 Floor surface, effect of, on dancers, 705
 Foot, care of, in peripheral vascular disease, 740-742
 "rolling" of, in dancers, 701
 "sickling" of, in dancers, 701
 Footgear, biomechanics of, flexibility in, 635-637
 friction in, 637-638
 heel strike in, 630-632
 pushoff phase in, 634-635, 638-640
 stance phase in, 632-633, 638-641
 three-dimensional aspects of, 641-643
 dermatitis from, 574-575
 for dancers, 704
 occupational, biomechanics of, 629-643
 occupational disease prevention and, 554-555
 perspiration absorption by, 643
 protective, 577
 shape changes in, 642-643
 size standards for, 641-642
 Forefoot deviation, determination of, 665
 Foundry shoes, 577
 Four quadrant approach, to clubfoot surgery, 233-245
 Fracture. *See also Avulsion fracture; Stress fracture; Transchondral fracture.*
 arthroscopic treatment of, 885-902
 biomechanics of, 268-269
 epiphyseal, 179-210
 healing of, 271-275
 in osteoarthropathy, 359
 incidence of, 187-188
 insufficiency, 980
 Jones', 946-954
 management of, 267-277
 patterns of, 269-271
 Tillaux, 191-199
 tripplane, 199-203
 Friction, of footwear, 637-638
 Fungal infection, occupational, 575
 from inhalation of organic dusts, 611
 of nail, laser treatment of, 815-818, 820
 Gait, assessment of, 17-18
 in conversion disorder, 744-745
 Gait angle, determination of, 667-668
 Gallium-67 citrate scan, in diabetic foot evaluation, 367-368
 Gallium-67 scan, in osteomyelitis, 43-46
 Gangrene, amputation in, 486
 in diabetic ulcer, 399-402
 prevention of, in peripheral vascular disease, 730, 740-742
 Gastrocnemius tendon recession, in flexible flatfoot, 103
 Gauze, in diabetic ulcer, 419
 in wound care, 416-417
 Gel dressing, for diabetic ulcer, 421-422
 Genetic factors, in diabetes mellitus, 327
 Gentamicin, in diabetic infection, 402
 Glucose monitoring, 319
 preoperative, 440-441
 Glycemic index, in diabetes management, 316
 Glycosylated hemoglobin, measurement of, 319
 Goniometer, in biomechanical examination, 655
 Gradient refractive index (GRIN) lens, in arthroscope, 835-836
 Green-Grice procedure, in spastic equinovag, 188
 Growing foot, radiography of, 23-24
 Growth, prediction of, 66-68
 Growth plate. *See Epiphysis.*

- Haglund's syndrome, 942-945
- Hallux, amputation of, in diabetic foot, 492-495
weight transfer after, 509-511
dorsiflexion of, determination of, 663
plantar lesions of, in diabetic foot, 455
